### TO WHOM IT MAY CONCERN

**Re: Hashim Omar Said**  
**Pwani University Adm. No. N38/PUC/0398/11**

Hashim Omar has been on field attachment in the KWS Mombasa Field Research Station. During his attachment, he actively participated in biodiversity assessment in the Shimba Hills National Reserve and the Community Vulnerability and Capacity Assessment in the Lamu sea and landscapes.

He is disciplined, hardworking, dedicated, willing to learn and cooperate as a team player. He is highly adaptable to strenuous working conditions and delivers timely outputs. As proceeds to his final year study on environmental sciences, we wish him all best and highly recommend him for any form of professional engagement.

Sincerely,

Mohamed Omar (PhD.)  
**Senior Scientist/KWS-KCDP Technical Coordinator**
